1. NATURE OF OPERATIONS AND GOING CONCERN

Environmental Waste International Inc. ("EWI") is incorporated under the Ontario Business Corporations Act and is listed on the TSX Venture Exchange under the symbol EWS. The Company's business is the design, development and sale of environmentally sound devices utilizing EWI's patented Reverse Polymerization process and dealing with environmental waste disposal, including the development, advancement, licensing and sale of its technology and related machines throughout the world. The Company's registered office is located at 360 Frankcom Street, Ajax, Ontario, L1S 1R5.

The Company's success depends on the completion and commercialization of its Reverse Polymerization technology. There is no assurance that EWI will be successful in the completion and development and commercialization of this process. Based on its current operating and financial plans, management of the Company believes that is can successfully obtain additional financing to enable it to continue operations. In the absence of additional financing, the Company is not expected to have sufficient funds to meet its obligations. Management continues to monitor the cash needs and is considering various alternatives to raise additional financing. There can be no assurances that the Company will be able to secure the necessary financing. Accordingly, the financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the possible inability of the Company to continue as a going concern.

2. BASIS OF PRESENTATION

[a] Statement of compliance

The unaudited interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards 34 "Interim Financial Reporting" ("IAS 34"). The notes presented in these unaudited interim condensed consolidated financial statements include only significant events and transactions occurring since our last fiscal year end and are not fully inclusive of all matters required to be disclosed in our annual audited consolidated financial statements.

The policies applied in these unaudited interim condensed consolidated financial statements are based on International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The Board of Directors approved the interim condensed consolidated financial statements on August 26, 2014.

[b] Basis of measurement

These unaudited condensed consolidated financial statements have been prepared on the historical cost basis except for certain instruments that are measured at fair value.

[c] Functional and presentation currency

These unaudited condensed consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency.

[d] Use of significant estimates and assumptions

The preparation of the Company's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and contingent liabilities and the determination of the Company's ability to continue as a going concern. Actual results could differ materially from these estimates and assumptions. The Company reviews its estimates and underlying assumptions on an ongoing basis. Revisions are recognized in the period in which the estimates are revised and may impact future periods. Management has applied significant estimates and assumptions to:

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or CGU exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. These calculations are based on available data, other observable inputs and projections of cash flows, all of which are subject to estimates and assumptions. Recoverable amounts are also sensitive to assumptions about the future usefulness of in-process development and the related marketing rights. At June 30, 2014, management concluded that none of the Company's non-financial assets were impaired.

Share-based payment transactions

The Company measures the cost of equity settled transactions with employees by reference to the fair value of the equity instruments at the date on which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires the determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

Development costs

Development costs are capitalized in accordance with the accounting policy note in the Company’s annual audited consolidated financial statements for the year ended December 31, 2013. In determining the amounts to be capitalized, management makes assumptions regarding the expected future cash generation of the project, discount rates to be applied and the expected period of benefits. After assessing all available facts and circumstances, management has determined that no development costs meet the recognition criteria to date.

3. SIGNIFICANT ACCOUNTING POLICIES

The Company’s principal accounting policies were outlined in the Company’s annual audited consolidated financial statements for the year ended December 31, 2013 and have been applied consistently to all periods presented in these unaudited interim condensed consolidated financial statements, except as described below in new standards and interpretations adopted during 2014. These statements should be read in conjunction with the annual audited consolidated financial statements for the year ended December 31, 2013.

[a] Basis of consolidation

These unaudited condensed interim consolidated financial statements include the accounts of the Company and the following subsidiaries: Environmental Waste Management Corporation [100% equity interest], Jaguar Carbon Sales Limited [100% equity interest], Ellsin [100% equity interest], EWI Rubber Inc. [100% equity interest], 2228641 Ontario Limited [100% equity interest] and EWILP [Company is primary beneficiary]. The ultimate parent of the Company is Environmental Waste International Inc.

[b] New standards and interpretations adopted during 2014

IAS 32 *Offsetting Financial Assets and Financial Liabilities – Amendments to IAS 32*

These amendments clarify the meaning of “currently has a legally enforceable right to set-off” and the criteria for non-simultaneous settlement mechanisms of clearing houses to qualify for offsetting. These are effective for annual periods beginning on or after 1 January 2014. The adoption of these amendments did not have a material impact on the consolidated financial statements.

Amounts in Canadian Dollars

IFRIC 21 Levies

In May 2013, International Financial Reporting Standards Interpretations Committee Interpretation 21, Levies (“IFRIC”) was issued. IFRIC 21 provides guidance on when to recognize a liability to pay a levy imposed by a government that is accounted for in accordance with IAS 37, *Provisions, Contingent Liabilities and Contingent Assets.* IFRIC is effective for annual periods beginning on or after January 1, 2014 and is applied retrospectively. The Company adopted IFRIC 21 in its consolidated financial statements for the annual period beginning on January 1, 2014. The adoption did not have a material impact on the consolidated financial statements.

IAS 36 *Impairment of Assets*

In May 2013, IASB published amendments to IAS 36, Impairment of Assets which reduce the circumstances in which the recoverable amount of cash-generating units is required to be disclosed and clarifies the disclosures required when an impairment loss has been recognized or reversed in the period. The amendment is effective for annual periods beginning on or after January 1, 2014. The Company adopted the IAS 36 amendments in its consolidated financial statements for the annual period beginning on January 1, 2014. The adoption did not have a material impact on the consolidated financial statements.

[c] New standards and interpretations not yet effective

IFRS 9*Financial Instruments*

In November 2009, the IASB issued IFRS 9, which covers classification and measurement as the first phase of its project to replace IAS 39. In October 2010, the IASB also incorporated new accounting requirements for liabilities. The standard introduces new requirements for measurement and eliminates the current classification of loans and receivables, available-for-sale and held-to-maturity, currently in IAS 39. There are new requirements for the accounting of financial liabilities as well as a carryover of requirements from IAS 39. In subsequent phases, the IASB is addressing hedge accounting and impairment of financial assets. In November 2013, the mandatory effective date of IFRS 9 of January 1, 2015 was removed and the effective date will be determined when the remaining phases of IFRS 9 are finalized. The Company is currently monitoring the developments of this standard and assessing the impact that the adoption of this standard may have on the consolidated financial statements.

There is one main research and development project: the TR900 tire recycling prototype. To date, management has determined that the related development costs that are not eligible for capitalization have been expensed and are recognized in operating, labour and manufacturing expenses. A total of $101,817 [2013 - $183,586) was recognized in operating, labour and manufacturing expenses during the six months ended June 30, 2014 related to development costs.

Amounts in Canadian Dollars

7. PROVISIONS

The provision balance is comprised of an accrual of one year annual salary to former senior management of the Company. The Company was party to a claim made by former senior management whose employment was terminated on March 1 2013, who is seeking four years severance pay in the amount of $1,020,000 *[see note 11[b]]*. Management believes that this claim for 48 months of pay is inflated and without merit and has provided for one year salary of $255,000, less amounts already paid (39,231) and any amounts subject to mitigation, as the Company believes the likelihood of payout of this net amount is probable.

8. LOANS AND BORROWINGS

[a] Loans payable consists of the following:

	June 30 2014 $	**December 31 2013** $
Fixed rate loan due to relative of former director, with interest at 10% per annum, repaid on April 30, 2014	—	301,000
.Fixed rate loans due to former directors, with interest at 10% per annum, repaid on April 30, 2014	—	112,000

	84,000	497,000
Less current portion	—	497,000
	84,000	—

During fiscal 2010, the Company borrowed a total amount of $497,000 from a relative of a former director of the Company and from five directors of the Company by way of convertible loans. On March 10, 2014, the Company issued 798,000 common share purchase warrants to the debt holders who agreed to extend the maturity of the debt until April 30, 2014 and relinquish the convertible feature of the debt, in consideration for the issuance of these warrants. *[see note 9]*

On April 30, 2014, $413,000 of proceeds from a new promissory note issued on that date *[see note 8(c)]* were used to repay loans outstanding to a relative of a former director in the amount of $301,000 and former directors in an aggregate amount of $112,000.

The remaining loans payable to current directors of $84,000 were extended for a three year period and mature on April 30, 2017. In consideration for the extension of these loans, the Company has agreed to issue 84,000 common share purchase warrants at an exercise price of $0.20.

Amounts in Canadian Dollars

[b] Term loan payable consists of the following:

	June 30 2014 $	December 31 2013 $
Fixed rate, non-revolving term loan from the Northern Ontario Heritage Fund Corporation ("NOHFC"), with interest at 4% per annum, repayable by March 23, 2020 or as further agreed to by the Company and NOHFC	**2,000,000**	2,000,000
Less current portion	**—**	2,000,000
	2,000,000	—

On April 14, 2014 the Company signed a second amendment to the term loan agreement agreeing to defer payments that were due to commence on April 1, 2013. Payments in respect of interest or principal due during the period from April 1, 2013 to April 30, 2015 are deferred until April 30, 2017. During this period, interest will accrue on the outstanding principal amount of the loan, compounded monthly. During the period May 1, 2015 to April 30, 2017 the Company will make interest only payments on the loan in the amount of $13,334 per month, representing $6,667 in respect of interest accruing during the period from April 1, 2013 to April 30, 2015 and $6,667 in respect of regular interest payable. Commencing May 1, 2017 monthly blended payments of principal and interest shall commence on the first day of each month until maturity.

During the three month period ended June 30, 2014, the Company recorded $100,000 of interest expense representing the accrual for period April 1, 2013 to June 30, 2014.

The loan is collateralized by a general security agreement covering all of the assets of Ellsin except real property and an assignment of all risks and fire insurance on the subject properties.

[c] Promissory note payable consist of the following:

	June 30 2014 $	December 31 2013 $
Promissory note payable, with interest at 8% per annum repayable on April 30, 2017	**500,000**	—
Net financing costs	**(15,556)**	—
	484,444	—
Less current portion	**—**	—
	484,444	—

On April 30, 2014 the Company received proceeds of $500,000 from issuance of a promissory note. Interest will accrue at a rate of 8% per annum quarterly in arrears, calculated on outstanding principal. Interest will be capitalized over the term of the loan, and payable in cash at maturity. Proceeds of the loan were reduced by net financing costs of $15,556. Total financing costs of $16,471 representing the fair value of 500,000 share purchase warrants issued to the debt holder in consideration for the promissory note, are deducted from the carrying value of the note payable. These financing costs are amortized over the term of the note using the effective interest method. Amortization of transaction costs of $915 were recorded and included in interest expense during the period.

Share-based payment plans

The Board of Directors have established a stock option plan (the "Plan") under which options to purchase shares are granted to directors, employees, officers and consultants of the Company. The number of options and exercise price thereof is set by the Board of Directors at the time of grant, provided that the exercise price shall not be less than the market price of the common shares on the day immediately preceding the date of grant of the options, on the stock exchange on which such shares are then traded.

Subject to the guidelines contained in the Plan the Corporation has adopted a 10% rolling stock option plan (the "New Plan") dated May 6, 2013, approved by the Board on May 9, 2013 and by the shareholders of the Corporation on June 11, 2013, pursuant to which the Board may, from time to time, authorize the issuance of options to directors, officers, employees and consultants of the Corporation and its subsidiaries to a maximum of 10% of the issued and outstanding Common Shares at the time of the grant. In accordance with the rules and policies of the TSX Venture Exchange, rolling stock option plans must be re-approved by shareholders on an annual basis and management will be asking shareholders to confirm, ratify and re-approve the New Plan at the next Annual General and Special meeting of the shareholders on June 2, 2014.

The following options to purchase shares were outstanding on June 30, 2014 and December 31, 2013:

10. RELATED PARTIES

[a] Transactions with related parties other than key management personnel

During the period, the Company engaged in transactions in the normal course of operations with the following related parties. All of these transactions have been accounted for at the exchange amount agreed to by the transacting parties as follows:

Interest paid to the directors totaled $27,037 [2013 - $4,200] and to a relative of a former Director of the Company totaled $10,693 [2013 - $15,050].

[b] Transactions with key management personnel

Interest paid to a key management personnel totalled $nil [2013 – $14,700].

The Company recognized as an expense during the six months ended June 30, 2014 salaries and benefits of $247,203 [2013 - $220,859] and share-based payment transactions of $89,666 [2013 - $28,752] with respect to key management personnel.

11. COMMITMENTS AND CONTINGENCIES

[a] Commitments

The Company is committed under a long-term lease for premises which expires on August 31, 2017 as follows:

	$
2014	85,624
2015	85,624
2016	85,624

[b] Contingencies

Under its by-laws, the Company indemnifies its directors/officers, former directors/officers and individuals who have acted at the Company's request to be a director/officer of an entity in which the Company is a shareholder, to the extent permitted by law, against any and all charges, costs, expenses, amounts paid in settlement and damages incurred by the directors and officers as a result of any lawsuit or any judicial, administrative or investigative proceeding in which the directors and officers are sued as a result of their service. Indemnification claims will be subject to any statutory or other legal limitation period. There are no indemnification claims known to the Company at this time. The Company has purchased directors' and officers' liability insurance. No amount has been accrued in these consolidated financial statements with respect to any indemnifications.

During the ordinary course of business activities, the Company may be party to claims and may be contingently liable for litigation. Management believes that adequate provisions have been made in the accounts where required. Although it is not possible to estimate the extent of potential costs and losses, if any, management believes that the ultimate resolution of such contingencies will not have a material adverse effect on the consolidated financial position of the Company.

The former president and CEO whose employment was terminated on March 1, 2013 commenced an action against the Company wherein he is seeking four years of severance pay in the amount of $1,020,000. Management believes that the claim for 48 months is without merit and has provided for one year salary in the amount of $255,000, less any amounts already paid (39,231) and any amounts subject to mitigation *[see note 7]* as the Company believes the likelihood of payout of this net amount is probable.

13. EVENTS AFTER THE REPORTING PERIOD

On July 21, 2014 the Company announced that Environmental Waste International Limited Partnership ("EWILP") commenced a lawsuit seeking injunctive relief to prevent the Company the interfering with certain intellectual property rights with EWILP purports belong to it. In 2007, the Company sold certain intellectual property rights to EWILP which were immediately licensed back to the Company. No specific amount was claimed as damages. Management denies all allegations and believes that this claim is without merit and plans to defend this action.

On August 1, 2014, the Company renewed its fixed rate first mortgage *[see note 8d]* for a three year term, six year amortization period with interest at 6% per annum, calculated monthly, repayable by August 1, 2017.

On August 5, 2014 the company received a Scientific Research and Experimental Development (SR&ED) tax credit refund in the amount of $111,516 related to 2013 fiscal year end.
